

## Set/Change Investment Transaction Authentication (Password token is required)

### (A) Mobile Banking

Step 1: Enter "Me">"Services and settings".

Step 2: Press "Investment Transaction Authentication Setting".

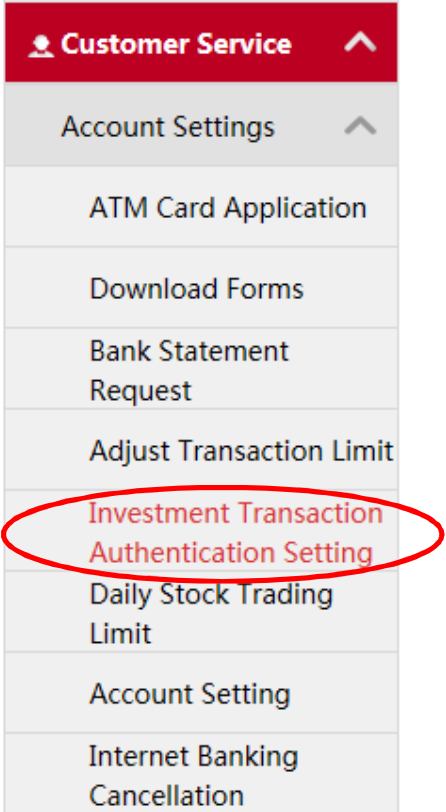

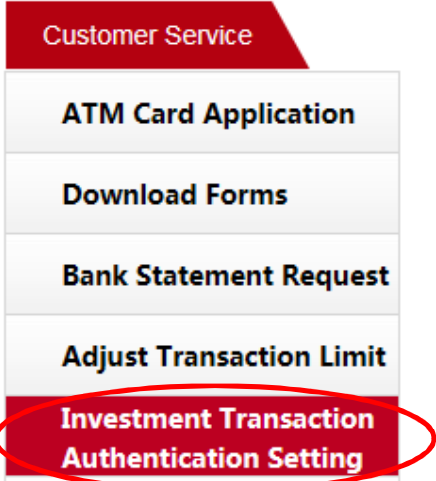

The image displays two side-by-side screenshots of a mobile application interface, likely for a financial transaction. Both screens have a light gray background and a dark gray header bar with a white back arrow icon on the left.

**Left Screen:** The header text is "Investment Transaction Auth". Below the header, the text "Investment Transaction Authentication Setting:" is displayed in a dark gray font, followed by "Password Token" in a red font. A large, light gray rectangular area contains the text "Please press [OK] on Password Token to get the Dynamic Password and finish the transaction as quickly as you can before timeout." Below this, the text "Dynamic Password" is displayed. At the bottom, there is a white input field with the placeholder text "Please input" and a red rectangular button labeled "Confirm".

**Right Screen:** The header text is "Investment Transaction Auth". Below the header, the text "Transaction Successful" is displayed in a bold, dark gray font. Below this, the text "Transaction Time" is displayed in a dark gray font, followed by "2018-04-17 18:49:50" in a light gray font. Below this, the text "Investment Transaction Authentication Setting:" is displayed in a dark gray font, followed by "Password Token" in a red font. At the bottom, there is a large red rectangular button labeled "Back".

Step 4: Perform “Password Token” authentication to complete the setting.

(B) Personal Internet Banking

<p>Vertical Menu</p> <p>Customer Service&gt; Account Settings &gt; Investment Transaction Authentication Setting</p>	<p>Horizontal Menu</p> <p>Customer Service&gt; Investment Transaction Authentication Setting</p>
 <p>A vertical menu with a red header 'Customer Service' and an upward arrow. Below it is a grey header 'Account Settings' with an upward arrow. The menu items are: ATM Card Application, Download Forms, Bank Statement Request, Adjust Transaction Limit, <b>Investment Transaction Authentication Setting</b> (circled in red), Daily Stock Trading Limit, Account Setting, and Internet Banking Cancellation.</p>	 <p>A horizontal menu with a red header 'Customer Service'. The menu items are: ATM Card Application, Download Forms, Bank Statement Request, Adjust Transaction Limit, and <b>Investment Transaction Authentication Setting</b> (circled in red).</p>

Step 1: Click “Investment Transaction Authentication Setting” on the above menu.

- To enhance the security of online trading, two-factor authentication is mandatory for Securities/Funds/Bonds/Precious Metal transactions or enquiry on Internet Banking by 26 April 2018 (please visit our website for the latest updates). If you have previously selected Password Token as your Securities Transaction Authentication method, this method will be used subsequently for executing the above transactions. If you have not selected any investment authentication method previously, SMS one-time password will be set automatically as the authentication method. You may change your investment authentication setting anytime on Mobile Banking or Personal Internet Banking. In order to receive transaction notification, please ensure that your mobile phone number and email address recorded in our Bank is up-to-date.

There is a transitional period from 25 March 2018 to 25 April 2018 (please visit our website for the latest updates). During the transitional period, if you have not previously selected an investment authentication method, you can choose to use SMS one-time password or to continue the transaction without any investment authentication method by selecting "Continue" button.

Options

Transaction Category	Two-Factor Authorization Options	
Investment Functions	<input type="button" value="Password Token"/> <input checked="" type="button" value="SMS One-Time Password"/>	

Step 2: Choose either “SMS one-time password” or “Password Token” to be your investment transaction authentication method.
