**Risk Disclosure :**

**Risk of Securities Trading:**

Investment involves risk and the prices of securities products fluctuate. The prices of securities may move up or down, sometimes dramatically, and may become valueless. It is as likely that loss will be incurred rather than profit made as result of buying and selling investment.

**Risk of Securities Margin Trading:**

The risk of loss in financing a transaction by deposit of collateral is significant. You may sustain losses in excess of your cash and any other assets deposited as collateral with the licensed or registered person. Market conditions may make contingent orders, such as "stop-loss" or "stop-limit" orders impossible to execute. You may be called upon at short notice to make additional margin or interest payments. If the required margin or interest payments are not made within the prescribed time, your collateral may be liquidated without your consent. Moreover, you will remain liable for any resulting deficit in your account and interest charged on your account. You should therefore carefully consider whether such a financing arrangement is suitable in light of your own financial position and investment objectives.

**Important Notice:**

The above risk disclosure statements cannot disclose all the risks involved. If you would like to get a full risk disclosure statements, please visit any branch of the Bank for enquiries.

Before making investment decision, you should thoroughly study the offering documents; the financial reports and relevant risk disclosure statements issued by the issuer of the investment product(s).
