

Message from Chairman

Anti-Corruption Policy

Industrial and Commercial Bank of China (Thai) Public Company Limited (“the Bank”) has announced its Anti-Corruption Policy for more than 5 years so that the Directors, Executives and staff of the Bank as well as that of the company in its financial group recognize the process for preventing bribery and corruption. The Bank adheres to the principle of good corporate governance by focusing on operating its business fairly and transparently. It also has been certified by the “Thailand’s Private Sector Collective Action Coalition Against Corruption” that is given to organizations with clear intention to fight against corruption which the Bank discloses such intention publicly through various medias including its website.

Throughout the years, the Bank has been aiming for its Directors, Executives and staff as well as the staff of the company in its financial group to be the role models in complying with the Anti-Corruption Policy. It also promotes the Anti-Corruption Policy in order to enhance its corporate governance which is the basis for rectifying the corruption problem as well as building a good organizational culture.

The Bank continues to implement measures against corruption in every aspect so as to strengthen the effectiveness of its anti-corruption measures. Should you encounter any action that could be viewed as fraud, please notify such action according to the Whistleblowing procedure of the Bank. This will assist the Bank in maintaining transparency in its operations and preserve its integrity in society. Lastly, the Bank would like to give its pledge that the Directors, Executives and staff of the Bank and that of the company in its financial group will strictly comply with the policy and measures as well as the related procedures on Anti-Corruption.
