The Meeting approved with majority vote of the shareholders who attended the meeting and casted their votes, the statement of financial position and the statement of comprehensive income for the year ended 31 December 2018, as proposed.

Agenda 4 To approve the appropriation of profit for the year 2018 and the omission of payment of dividend

The Corporate Secretary invited Mr. Som Pisarnsopon – Executive Vice President, Finance and Strategy Division to present to the Meeting the details of this Agenda.

Mr. Som presented the Meeting that in the year 2018, the Bank had a net profit of Baht 1,517 million with which the Bank was required by law to appropriate at least 5% of the net profit less the accumulated losses as the Legal Reserve.

The Board of Directors of the Bank, thus, proposed to appropriate Baht 500 million of the net profit as the Bank's Legal Reserve which the total Legal Reserve of the Bank would be Baht 1,100 million while the remaining Baht 1,017 million shall be set as Unappropriated Retained Earnings. The Legal Reserve when appropriated as capital fund, the Bank would have a larger capital fund to support future operations of the Bank especially for the support of large infrastructure projects that the Thai government would start in the near future and to strengthen the Bank's Capital Fund in line with the requirement under Basel III.

As a result, the Bank would not pay dividend from the operating result of 2018

Mr. Somkiat Saleepattana, a shareholder, asked how many years had the Bank stopped paying dividends in which Mr. Som answered that since ICBC took over the Bank, it had never paid dividends since the Bank had a vision to support the Thai economy through large projects such as infrastructure projects of the government, therefore, needed a large capital fund to provide financial support to such projects thus had to accumulate profits and omit paying dividends.

Mr. Supot Auchailertkul, a shareholder, asked that the Bank had a reserve that was higher than required by the Bank of Thailand, why the Bank was not paying dividends in which Mr. Som answered that legal reserve and capital fund were 2 different things. A reserve was set aside to cushion against bad debts but capital fund had to be large enough for the Bank to be able to support large projects. Mr. Supot further asked that if that was the case, why the Bank did not find other ways to expand the capital fund such as issuing debentures. Mr. Som answered that in the past the Bank did issue debentures but debt instruments were expensive for the Bank with high interest burden thus needed accumulated profits to expand the capital fund. He added that if any shareholder did not agree with this dividend policy, at this Meeting, the Bank had provided a solution to the shareholders which would be explained in the next agenda.

The Meeting considered the matter and cast the votes as follows:

Approved	2, 220,006,371	shares	equivalent to	98.787356%
Disapproved	27,251,230	shares	equivalent to	1.212644%
Abstained	35,582	shares		
Total	2,247,293,183	shares		

The Meeting approved with majority vote who attended the meeting and casted their votes, the appropriation of profit for the year 2018 and the omission of payment of dividend, as proposed.

Agenda 5 To approve the Bank's new Dividend Policy and the amendment to Article 55 of the Articles of Association

The Corporate Secretary invited Mr. Som Pisarnsopon – Executive Vice President, Finance and Strategy Division to present to the Meeting the details of this Agenda.

Mr. Som presented the Meeting that in accordance with the Bank of Thailand's Notification on Corporate Governance of Financial Institutions, financial institutions were required to disclose their dividend policies in their Annual Reports starting from the 2018 Annual Report. With reference to the Bank's vision to be a financial bridge between Thailand and China to facilitate Sino-Thai bilateral trade and investments, therefore, the capital fund of the Bank should be sufficiently large enough in order to support both public and private investments, especially infrastructure projects of the government and should also be sufficient for lending to large corporations (Single Lending Limit/ SLL).

In order for the Bank's capital fund to be sufficient to support such vision, the Bank thus proposed the new Dividend Policy by determining the targeted minimum amount of Tier 1 Capital which the Bank must achieve before any dividend can be paid. The Bank would like to propose the targeted Tier 1 Capital to be at Baht 40,000 million which would be in line with SLL of around Baht 10,000 million, in order to sufficiently support the business requirements.

To fulfill the condition of the new Dividend Policy of the Bank it would likely take around 8 years in order to achieve the condition for dividend payment and likely that some shareholders would disagree with this new Dividend Policy, therefore, the Bank considered fair treatment to the shareholders by proposing this new Dividend Policy to be stated in Article 55 of the Bank's Articles of Association so that the Bank would have the legal right to buy back shares from the shareholders who disagreed with the amendment to the Articles of Association. The amendment would be as follows:

"The Company may pay dividends only when the Company has profits, no accumulated loss and its Tier 1 capital of at least Baht 40,000 million. When considering whether or not to pay the dividends, the Company shall take into account the liquidity, economic condition as well as the business plan of the Company.

By virtue of a resolution of the shareholders' meeting, dividends shall be divided by number of shares, equally for each share and may be made in full or in part in the form of stock dividends through the issuance of new shares to the shareholders in various types of shares already issued at that time." And one more phrase in the next sentence "Subject to the 1st Paragraph of Article 55".

Mr. Som added that the Bank would only buy back shares from the shareholders who voted "Disagree" with the amendment to the Bank's Articles of Association. The Bank would buy the shares at Baht 18.02 per share according to the details specified in the supplementary document of this agenda. The price offered was at a premium of 1.37 times the Consolidated Book Value of the Bank. There was no guarantee that the Bank would buy back the shares again in the future and if there would be a buy-back, there was no guarantee that the Bank would be offering such high premium again. Shareholders who voted 'Disagree' to the amendment to the Bank's Articles of Association shall submit

their intent to sell shares to the Bank within 5 days from the date of this Meeting. Details and required forms and documents had been sent together with the Notice of the AGM.

In addition, the Board of Directors would like to propose the Meeting to authorize a director or any other person delegated by any director to register the amendments to the Bank's Articles of Association with the Department of Business Development, the Ministry of Commerce, as well as to be authorized to amend the wordings, as requested by the registrar, or take other actions necessary for the completion of such registration.

Mr. Somkiat Saleepattana, a shareholder, commented that the explanation for this agenda was not clear, how would anyone know how the amended version differed from the existing version and when the Bank said it would be able to pay out dividends within the next 8 years, when was the start date for the period. Ms. Orapin answered that if the shareholder looked in the details of this agenda in the Notice of the AGM, he/she would see that the Bank had provided the details of Article 55 in 2 columns. On the left side, the existing provisions and the right side the amended provisions. In the past, the Bank did not have a dividend policy but since the Bank of Thailand issued a new requirement for every financial institution to disclose its dividend policy to its shareholders, hence the amendment to the Bank's Articles of Association. Moreover, Mr. Som answered that the period of approximately 8 years before the Bank could pay out dividend starting from the following year.

Mr. Somkiat Maruesri, a representative of Ms. Sirima Panichewa a shareholder, asked if the period of 8 years was due and the Bank still could not reach a capital fund of Baht 40,000 million, would it pay dividend or if it could, would the Bank guarantee that there would be a dividend payout. Mr. Som answered that, for the first question, as specified in the Articles of Association, the Bank would not be able to pay out dividend until its capital fund reached Baht 40,000 million. For the second question, if the Bank had a capital fund of Baht 40,000 million, it would be able to pay out dividend, however, this would depend on the discretion of the Bank's Board of Directors. Mr. Somkiat further asked that why the Bank had to add additional requirement that it would pay out dividend "when the Company has profits, no accumulated loss". Ms. Orapin answered that this provision was in accordance with the Public Limited Companies Act, the Bank only added the provision on Tier I capital of Baht 40,000 million.

Mr. Vorayos Thongtan, a representative of Mr. Samrerng Manoonpol a shareholder, commented that the shareholder was not opposed to the Bank having a large capital fund to facilitate its business but the time period of 8 years before it could pay out dividend was too long, the buy-back offered price was also too low, it should have offered a higher premium. This was since the shareholders were subject to income tax from the sale of these shares. Therefore, he would like the Bank to reconsider repurchasing the shares at Baht 23-25 per share. Mr. Som answered that when ICBC first bought the Bank's shares in 2011, the Bank's book value was Baht 11.50 per share and it used a premium of 1.37 times the book value in calculating the offering price. This time, the Bank had a book value as of the end of 2018 of 13.15 per share and used the same premium rate of 1.37 times hence the offering price of Baht 18.02 per share. Mr. Vorayos added that the difference from this share repurchase was the last time, the Bank's shares were listed on the Stock Exchange of Thailand which was not subject to capital gain tax but this time the shareholders may be subject to income tax of up to 35% hence the proposed price of Baht 23-25 per share so that after deducting tax the shareholders would receive approximately Baht 18 per

share. Ms. Orapin added that the objectives of the 2 share repurchases were different, the last time was a business takeover but this time it was exit option for the shareholders who did not agree with the new dividend policy of the Bank.

Mr. Somkiat Maruesri commented that the premium rate last time was set when the economic condition was not so healthy but now many assets or costs have increased, therefore, the premium should be around 1.5 times. He said that the new dividend policy was like closing doors to the shareholders making it hard for them to move, therefore, he proposed the Bank to reconsider the offering price. Mr. Som answered that the fact that the Bank was offering to buy back the shares should be considered an opening of doors since it gave the shareholders an option to sell their shares if they did not agree with the new dividend policy of the Bank. On the issue of adjusting the offering price, the Board of Directors had carefully considered the matter and opined that such price was appropriate and could not be changed.

Mr. Somkiat Saleepattana, a shareholder, asked if the Bank's capital fund reached Baht 40,000 million before the period of 8 years, would it payout dividend. Mr. Som answered that when the time came, the Board of Directors would have to consider again. Mr. Somkiat asked whether or not a shareholder could sell partial shares from his/her holding. Ms. Orapin answered that partial sale of shares was not allowed since the Public Limited Companies Act prescribed that shareholders had the right to sell back their shares because they disagreed with the new dividend policy.

Mr. Somkiat Saleepattana, a shareholder, further asked whether the shareholders who did not attend the Meeting could sell their shares. Ms. Orapin answered that if they did not attend in person but assigned a proxy to vote "disagree" in Agenda 5 they could still sell their shares but if they did not attend the Meeting and did not have a proxy, they would not be able to sell the shares.

The Meeting considered the matter and cast the votes as follows:

Approved	2,208,654,132	hares	equivalent to	98.280640%
Disapproved	38,639,051	hares	equivalent to	1.719360%
