<sup>\*</sup> This refers to the position under the Banking (Capital) Rules in force on 31 December 2012.

### Notes to the template:

Elements where a more conservative definition has been applied in the BCR relative to that set out in Basel III capital standards:

Row No.	Description	Hong Kong basis	Basel III basis
	Other intangible assets (net of associated deferred tax liability)	33,701	33,701
9	Explanation As set out in paragraph 87 of the Basel III text issued by the 2010), mortgage servicing rights (MSRs) may be given limited (and hence be excluded from deduction from CET1 capital up to Hong Kong, an AI is required to follow the accounting treatment of intangible assets reported in the AI's financial statements and to CET1 capital. Therefore, the amount to be deducted as reported that required under Basel III. The amount reported under the combox represents the amount reported in row 9 (i.e. the amount reported basis") adjusted by reducing the amount of MSRs to be deducted the 10% threshold set for MSRs and the aggregate 15% threshold from temporary differences and significant investments in CET financial sector entities (excluding those that are loans, facilities connected companies) under Basel III.	recognition in the specified ent of including to deduct MSRs in row 9 may lumn "Basel III orted under the doto the extent rold set for MSRs I capital instrun	CET1 capital threshold). In MSRs as part in full from be greater than basis" in this e "Hong Kong not in excess of in Exce
Deferred tax assets net of deferred tax liabilities  Explanation  As set out in paragraphs 69 and 87 of the Basel III text issued by the Basel Committee (D 2010), DTAs that rely on future profitability of the bank to be realized are to be d whereas DTAs which relate to temporary differences may be given limited recognition is capital (and hence be excluded from deduction from CET1 capital up to the specified the In Hong Kong, an AI is required to deduct all DTAs in full, irrespective of their origin CET1 capital. Therefore, the amount to be deducted as reported in row 10 may be great that required under Basel III.  The amount reported under the column "Basel III basis" in this box represents the reported in row 10 (i.e. the amount reported under the "Hong Kong basis") adjust reducing the amount of DTAs to be deducted which relate to temporary differences to the not in excess of the 10% threshold set for DTAs arising from temporary differences			be deducted, inition in CET1 ified threshold). For origin, from the greater than the street amount adjusted by the extent the street of the extent the extent the street of the extent the e

investments in CET1 capital instruments issued by financial sector entities (excluding those that

are loans, facilities and other credit exposures to connected companies) under Basel III.

Insignificant capital investments in CET1 capital instruments		
issued by financial sector entities that are outside the scope	0	0
of regulatory consolidation (amount above 10% threshold)		

#### **Explanation**

For the purpose of determining the total amount of insignificant capital investments in CET1 capital instruments issued by financial sector entities, an AI is required to aggregate any amount of loans, facilities or other credit exposures provided by it to any of its connected companies, where the connected company is a financial sector entity, as if such loans, facilities or other credit exposures were direct holdings, indirect holdings or synthetic holdings of the AI in the capital instruments of the financial sector entity, except where the AI demonstrates to the satisfaction of the Monetary Authority that any such loan was made, any such facility was granted, or any such other credit exposure was incurred, in the ordinary course of the AI's business.

Therefore, the amount to be deducted as reported in row 18 may be greater than that required under Basel III. The amount reported under the column "Basel III basis" in this box represents the amount reported in row 18 (i.e. the amount reported under the "Hong Kong basis") adjusted by excluding the aggregate amount of loans, facilities or other credit exposures to the AI's connected companies which were subject to deduction under the Hong Kong approach.

Significant capital investments in CET1 capital instruments		
issued by financial sector entities that are outside the scope	0	0
of regulatory consolidation (amount above 10% threshold)		

#### Explanation

For the purpose of determining the total amount of significant capital investments in CET1 capital instruments issued by financial sector entities, an AI is required to aggregate any amount of loans, facilities or other credit exposures provided by it to any of its connected companies, where the connected company is a financial sector entity, as if such loans, facilities or other credit exposures were direct holdings, indirect holdings or synthetic holdings of the AI in the capital instruments of the financial sector entity, except where the AI demonstrates to the satisfaction of the Monetary Authority that any such loan was made, any such facility was granted, or any such other credit exposure was incurred, in the ordinary course of the AI's business.

Therefore, the amount to be deducted as reported in row 19 may be greater than that required under Basel III. The amount reported under the column "Basel III basis" in this box represents the amount reported in row 19 (i.e. the amount reported under the "Hong Kong basis") adjusted by excluding the aggregate amount of loans, facilities or other credit exposures to the AI's connected companies which were subject to deduction under the Hong Kong approach.

Insignificant capital investments in AT1 capital instruments		
issued by financial sector entities that are outside the scope	0	0
of regulatory consolidation (amount above 10% threshold)		

#### **Explanation**

The effect of treating loans, facilities or other credit exposures to connected companies which are financial sector entities as CET1 capital instruments for the purpose of considering deductions to be made in calculating the capital base (see note re row 18 to the template above) will mean the headroom within the threshold available for the exemption from capital deduction of other insignificant capital investments in AT1 capital instruments may be smaller. Therefore, the amount to be deducted as reported in row 39 may be greater than that required under Basel III. The amount reported under the column "Basel III basis" in this box represents the amount reported in row 39 (i.e. the amount reported under the "Hong Kong basis") adjusted by excluding the aggregate amount of loans, facilities or other credit exposures to the AI's connected companies which were subject to deduction under the Hong Kong approach.

Insignificant capital investments in Tier 2 capital instruments		
issued by financial sector entities that are outside the scope	0	0
of regulatory consolidation		

#### **Explanation**

The effect of treating loans, facilities or other credit exposures to connected companies which are financial sector entities as CET1 capital instruments for the purpose of considering deductions to be made in calculating the capital base (see note re row 18 to the template above) will mean the headroom within the threshold available for the exemption from capital deduction of other insignificant capital investments in Tier 2 capital instruments may be smaller. Therefore, the amount to be deducted as reported in row 54 may be greater than that required under Basel III. The amount reported under the column "Basel III basis" in this box represents the amount reported in row 54 (i.e. the amount reported under the "Hong Kong basis") adjusted by excluding the aggregate amount of loans, facilities or other credit exposures to the AI's connected companies which were subject to deduction under the Hong Kong approach.

#### Remarks:

The amount of the 10%/15% thresholds mentioned above is calculated based on the amount of CET1 capital determined under the Banking (Capital) Rules.
