Risk Disclosure :

Securities: Investment involves risk and the prices of securities products fluctuate. The prices of securities may move up or down, sometimes dramatically, and may become valueless. It is as likely that loss will be incurred rather than profit made as result of buying and selling investment. The risk of loss in financing a transaction by deposit of collateral is significant. You may sustain losses in excess of your cash and any other assets deposited as collateral with the licensed or registered person. You may be called upon at short notice to make additional margin or interest payments. If the required margin or interest payments are not made within the prescribed time, your collateral may be liquidated without your consent. Moreover, you will remain liable for any resulting deficit in your account and interest charged on your account. You should undertake your own research and study before you trade or invest. You should carefully consider whether trading or investment is suitable in light of your own financial position and investment objectives. You are advised to seek independent financial and professional advice before you trade or invest.

The price of the warrants and Callable Bull/Bear Contracts (“CBBC”) may move up or down rapidly and investors may sustain a total loss of their investment. Past performance of the underlying asset is not an indicator of future performance. You should ensure that you understand the nature of the warrants and CBBC and carefully study the risk factors set out in the relevant listing documents of the warrants and CBBC and where necessary, seek independent professional advice. Warrants that are not exercised will have no value upon expiry. CBBC has a mandatory call feature and may be terminated early, in such case, (i) in the case of Category N CBBCs, an investor will not receive any residual value and (ii) in the case of Category R CBBCs, the residual value may be zero.
