Activate Mobile Token

1 Identity card verification 2 Verify one-time password 3 Set up Mobile Token password

Set up Password Please enter the password

Confirm Password Please enter the password again

Confirm

Tips:
 1. This password should be different from the password of "Card Number / User Name" and "Login Password" when logging in to Mobile Banking and Personal Internet Banking.
 2. After the password is established, you can still use your "Card Number / Username" and "Login Password" to log in to your personal online banking and mobile banking at other devices.
 3. The password of the mobile security code must be 6 digits.
 4. The password cannot contain 6 sequential digits, and cannot contain 6 identical digits.

Set up your password.
