## Note 15 – Fair Value of Financial Instruments (continued)

### Fair value Assumptions

- i. The carrying value of cash and cash equivalents is the fair value.
- ii. For on demand and deposits from customers maturing within six months, due from/to other financial institutions, the carrying value is considered to be the fair value; for those categories with maturities more than six months, the fair value is calculated on a discounted cash flow basis using the current interest rate offered for a similar maturity.
- iii. The carrying value of loans and advances to customers is net of allowance for impairment loss. For loans and advances to customers maturing or repricing within six months, the carrying value is considered to be fair value; for those categories with maturities more than six months, the fair value are calculated on a discounted cash flow basis using the current interest rate offered for a similar maturity.
- iv. For amounts due from/to related parties maturing or repricing within six months, the carrying value is considered to be fair value; for those categories with maturities more than six months, the fair value is calculated on a discounted cash flow basis using the current interest rate offered for a similar maturity.
- v. The fair value of financial assets held to maturity, derivative financial instruments, and debt securities is determined by a discounted cash flow basis, which is based on the interest rate repricing and maturity of the instruments.
- vi. The carrying value of other financial assets and liabilities is considered to be the fair value.

### Fair Value Measurements Recognised in the Balance Sheet

Under NZ IFRS 7, the fair value of financial instruments is determined on a hierarchical basis that reflects the significance of the inputs used in making the measurements. The fair value hierarchy is:

- Level 1 fair value measurement are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within level 1 that are observable for the assets or liabilities, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

## Note 16 – Liquidity Risk

Liquidity risk is the risk that funds will not be sufficient or will not be raised at a reasonable cost in a timely manner to meet the needs of asset growth or repayment of debts due, although remaining solvent. This may arise from amount or maturity mismatches of assets and liabilities.

The Bank manages its liquidity risk through the Treasury Department and aims at:

- 1 Optimising the structure of assets and liabilities;
- 2 Maintaining the stability of the deposit base;
- 3 Projecting cash flows and evaluating the level of current assets; and
- 4 Maintaining an efficient internal fund transfer mechanism/agreement with the Parent Bank for liquidity.

The tables below summarise the cash flows payable or receivable by the Bank under financial assets and liabilities by remaining contractual maturities at the balance sheet date. The amounts disclosed in the table are contractual undiscounted cash flows and include both principal and associated future interest payments and therefore will not agree to the carrying values on the balance sheet. Actual cash flows can differ significantly from contractual cash flows as a result of future events.

Accrued interest within the other financial assets/ liabilities captions in the statement of financial position is included in this table in the row in which the related financial instrument is presented.

Note 17 – Interest Rate Risk

The Bank's interest rate risk mainly arises from the mismatches between the repricing dates of interest-generating assets and interest-bearing liabilities. The Bank manages its interest rate risk by:

1. Regularly monitoring the macroeconomic factors that may have impact on the benchmark interest rates;
2. Optimising the differences in timing between contractual repricing (maturities) of interest-generating assets and interest-bearing liabilities; and
3. Managing the deviation of the pricing of interest-generating assets and interest-bearing liabilities from the benchmark interest rates.

A principal part of the Bank's management of interest rate risk is to monitor the sensitivity of projected net interest income under varying interest rate scenarios (simulation modelling). The Bank aims to mitigate the impact of prospective interest rate movements which could reduce future net interest income, while balancing the cost of such hedging on the current revenue.

The following table demonstrates the contractual repricing or maturity dates, whichever is earlier, of the Bank's assets and liabilities:

The Bank does not have any other classes of capital instrument in its capital structure.

Regulatory capital adequacy ratios are calculated by expressing capital as a percentage of risk weighted exposures. As a condition of registration, the Bank must comply with the following minimum capital requirements set by the RBNZ:

- The Total capital ratio of the Banking Group is not less than 8%;
- The Tier 1 capital ratio of the Banking Group is not less than 6%;
- The Common Equity Tier 1 capital ratio of the Banking Group is not less than 4.5%; and
- The Total capital of the Banking Group is not less than \$30 million.

## Note 18 – Capital Adequacy (continued)

The capital adequacy tables set out below summarise the composition of regulatory capital and capital adequacy ratios as at 30 June 2016, 30 June 2015, and 31 December 2015. The Bank has complied with both regulatory and internal capital adequacy requirements.

The Bank has considered other material risks not included below and whether to allocate any capital to cover these risks and concluded that these risks are not significant and has therefore not allocated any capital to cover them.

Our responsibility is to express an independent review opinion on the half year disclosure statement, which includes interim financial statements disclosed in accordance with Clause 25 of the Order, and supplementary information disclosed in accordance with schedules 5, 7, 9, 13, 16 and 18 of the Order, as presented to us by the Directors, and report our opinion to you.

We are responsible for reviewing the interim financial statements (excluding the supplementary information) in order to report to you whether, in our opinion, on the basis of the procedures described below, anything has come to our attention that would cause us to believe that the interim financial statements have not been prepared, in all material respects, in accordance with NZ IAS 34 *Interim Financial Reporting* and do not present fairly, in all material respects, the financial position of the Bank as at 30 June 2016 and its financial performance and cash flows for the six-month period ended on that date.

We are responsible for reviewing the supplementary information (excluding the supplementary information relating to capital adequacy) in order to report to you whether, in our opinion, on the basis of the procedures described below, anything has come to our attention that would cause us to believe that the supplementary information does not fairly state the matters to which it relates in accordance with schedules 5, 7, 13, 16 and 18 of the Order.

We are responsible for reviewing the supplementary information relating to capital adequacy in order to state whether, on the basis of the procedures described below, anything has come to our attention that would cause us to believe that the information disclosed in accordance with schedule 9 is not, in all material respects, prepared in accordance with the Capital Adequacy Framework (Standardised Approach) (BS2A) and disclosed in accordance with Schedule 9 of the Order.

### ***Basis of opinion***

We have performed our review in accordance with the review engagement standard NZ Standard on Review Engagements 2410, *Review of Financial Statements Performed by the Independent Auditor of the Entity* ('NZ SRE 2410') issued by the External Reporting Board. As the auditor of the Bank, NZ SRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial statements.

A review is limited primarily to enquiries of the Bank's personnel and analytical review procedures applied to the financial data, and thus provides less assurance than an audit. The procedures performed in a review are substantially less than those performed in an audit conducted in accordance with International Standards on Auditing (New Zealand). Accordingly we do not express an audit opinion on those financial statements.

Our firm has also provided other services to the Bank in relation to financial statements review and accounting advice engagements. Subject to certain restrictions, partners and employees of our firm may also deal with the Bank on normal terms within the ordinary course of trading activities of the business of the Bank. These matters have not impaired our independence as auditor of the Bank for this engagement. The firm has no other relationship with, or interest in, the Bank.

### ***Review opinion***

We have examined the interim financial statements and supplementary information and based on our review nothing has come to our attention that causes us to believe that:

- a) the interim financial statements on pages 13 to 49 (excluding the supplementary information disclosed in accordance with schedules 5, 7, 9, 13, 16 and 18 of the Order) have not been prepared, in all material respects, in accordance with NZ IAS 34 *Interim Financial Reporting* and do not present fairly, in all material respects, the financial position of the Bank as at 30 June 2016 and its financial performance and cash flows for the six month period ended on that date;
- b) the supplementary information (excluding supplementary information relating to capital adequacy) disclosed in accordance with schedules 5, 7, 13, 16 and 18 of the Order, does not fairly state, in all material respects, the matters to which it relates in accordance with those schedules; and
- c) the supplementary information relating to capital adequacy disclosed in accordance with schedule 9 of the Order, is not, in all material respects prepared in accordance with Capital Adequacy Framework (Standardised Approach) (BS2A) and disclosed in accordance with schedule 9 of the Order.

Our review was completed on 25 August 2016 and our opinion is expressed as at that date.
