

# Guide of statement download

## Statement introduction

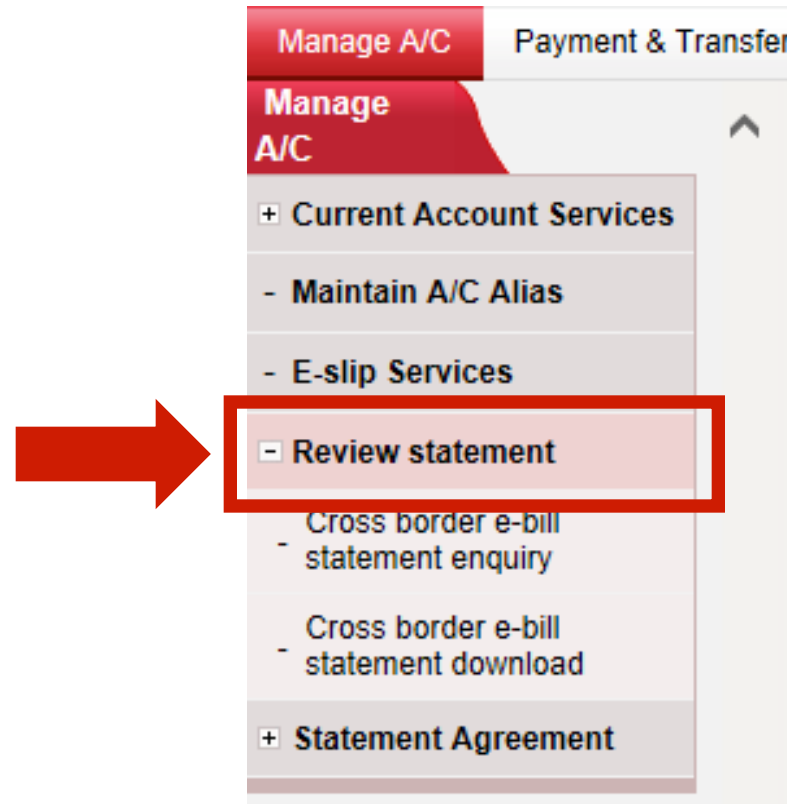

- Customers can **view, download and print** statements through the online banking.
- The statement includes **account information** and **transaction flow** to meet the needs of reconciliation and statistics.

## Business characteristics

- **Self service signing**: customers can sign the statement agreement through online banking. It can generate a statement for a comprehensive account or a specified account of different periods according to business needs.
- **Diversified operations**: you can inquiry the statement online at any time, and set time and other conditions to filter out corresponding bills.
