

The **China Connectivity Index** tracks rising Belt & Road connectivity & changing priorities

Three dimensions, ten pillars

What does the Index measure?

TRADE	CAPITAL	PEOPLE
Commodity Exports	Direct Investment	Chinese Workers in B&R
Non-Commodity Exports	Portfolio Investment	B&R Workers in China
Services Trade	Official Financing	Social Interaction
Supply Chain Imports		

Shifting priorities mean new types of trade are becoming more important

Change in GDP contribution from 2011–2015

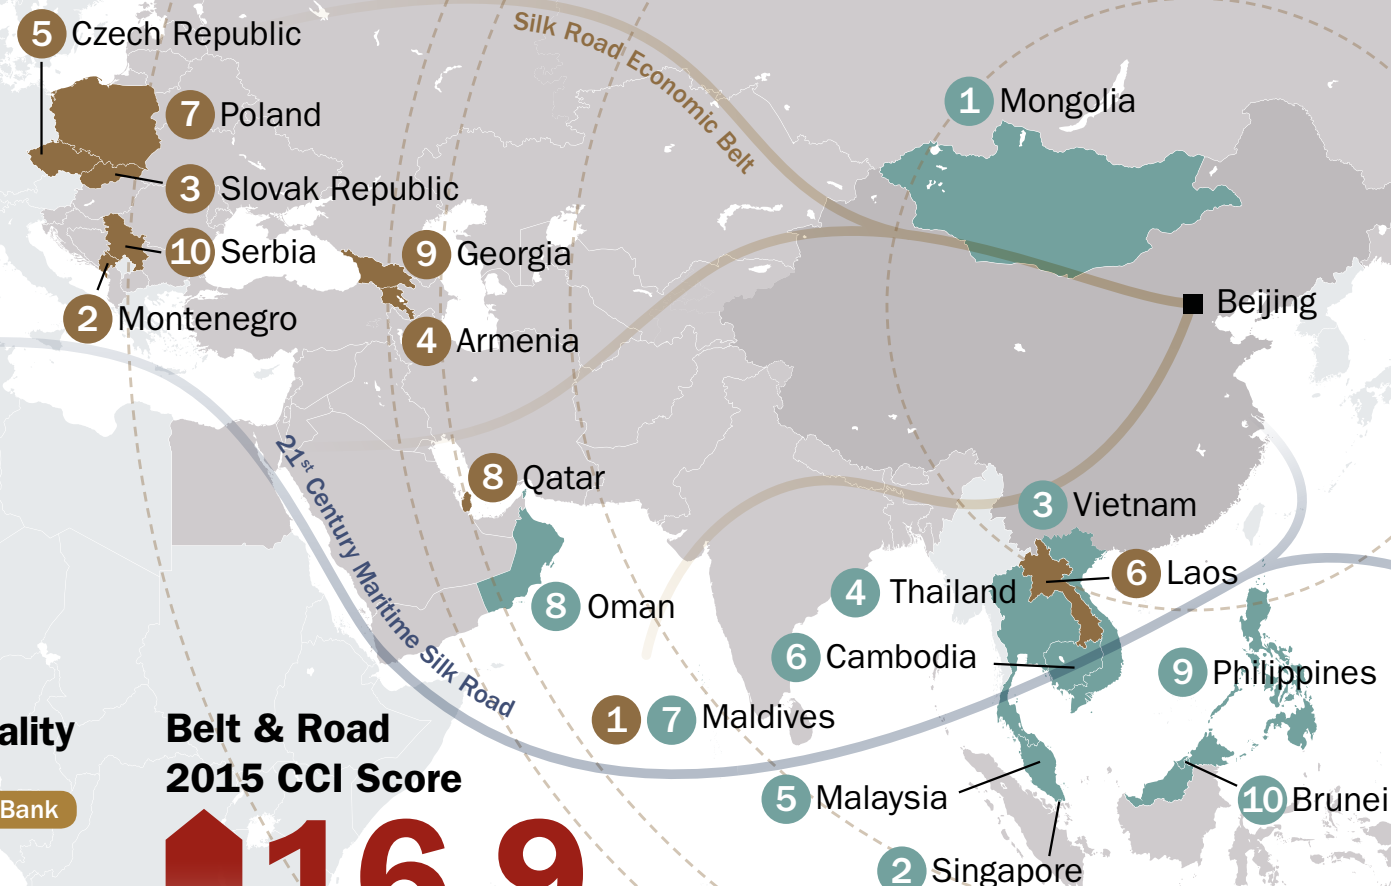

China is investing in new financial architecture to boost infrastructure quality

- Asia Infrastructure Investment Bank
- Silk Road Fund
- Sino-CEE Fund
- New Development Bank

● Top 10 CCI countries (2015)

● Top 10 risers (2011–2015)

Proximity to China is now less important

1/3 of variation is linked to distance from China, down from close to half in 2009.

**Belt & Road
2015 CCI Score**

16.9
Up **60%** since 2005
