Some investments discussed in this document may have a high level of volatility. High volatility investments may experience sudden and large falls in their value causing losses when that investment is realised. Those losses may equal your original investment. Indeed, in the case of some investments, the potential losses may exceed the amount of initial investment, and in such circumstances,

you may be required to pay more money to support those losses. Income yields from investments may fluctuate and, in consequence, initial capital paid for such investments may be used as part of that income yield. Some investments may not be readily realisable and it may be difficult to sell or realize those investments, similarly it may prove difficult for you to obtain reliable information about the value, or risks, to which such an investment is exposed.
