

ICBC Asset Management (Global) Investment Funds – ICBC Asset Management (Global) USD Money Market Fund

Important Information:

- ICBC Asset Management (Global) USD Money Market Fund (the "Sub-Fund")'s investment portfolio may fall in value due to any of the key risk factors below and therefore your investment in the Sub-Fund may suffer losses. There is no guarantee of the repayment of principal.
- Bank deposits are subject to the credit risks of the relevant financial institutions. The Sub-Fund's deposit may not be protected by any deposit protection schemes, or the value of the protection under the deposit protection schemes may not cover the full amount deposited by the Sub-Fund. Therefore, if the relevant financial institution defaults, the Sub-Fund may suffer losses as a result.
- The Sub-Fund invests in short-term debt instruments with short maturity, which means the turnover rates of the Sub-Fund's investments may be relatively high and the transaction costs incurred as a result may also increase.
- Underlying investments of the Sub-Fund may be denominated in currencies other than the Base currency of the Sub-Fund. The Net Asset Value of the Sub-Fund may be affected unfavourably by fluctuations in the exchange rates between these currencies and the Base currency and by changes in exchange rate controls.
- The Sub-Fund is exposed to the credit/default risk of issuers of the debt securities that the Sub-Fund may invest in. The credit rating of a debt instrument or its issuer may subsequently be downgraded, and the value of the Sub-Fund may be adversely affected.
- This Sub-Fund is exposed to other risks including but not limited to valuation risk, sovereign debt risk, RMB currency and conversion risk, concentration risk, eurozone risk, emerging market risk, risks associated with investment in financial derivative instruments and hedging risk.
- Investors should ensure that the intermediary has advised you whether this Sub-Fund is suitable for you.
- Investors should not invest in this Sub-Fund based solely on the information provided herein, and should read the relevant offering documents (e.g., the Explanatory Memorandum and the Products Key Facts Statement) particularly the investment policies and risk factors for more details before investing.
- Investors should note that purchase of a unit in the Sub-Fund is not the same as placing funds on deposit with a bank or deposit-taking company and that the Sub-Fund is not subject to the supervision of the Hong Kong Monetary Authority.
